Momen Sheta _Graphic Designer

Proficient using Adobe Photoshop, Illustrator, Premiere, and Blender to create innovative 2D and 3D with blender designs that align with brand guidelines. Adept at developing responsive designs and user interfaces that improve engagement. I also enjoy working on motion graphics and layouts that make websites and apps feel smooth and engaging.

Every person and every entity have a story where they are the hero and tell it with all its details and events. My mission is to help them tell this story.
